Protect Your Investment

Genuine International
Mud Guards and Floor Mats

• All driver side floor mats feature one of our exclusive Positive Restraint Systems (PRS) designed to hold the mat in place.

• Heavy duty borders to catch and retain abrasive debris, caustic materials, liquids, grease and oils harmful to a truck's O.E. flooring.

• High impact absorbing vertical ribs textured inlay.

Part #2504881C2

Advisory

Floor mat part numbers won't necessarily fit all years, or all configurations for the Truck model listed. Truck manufacturers make changes to cab interiors periodically that can affect the fit of auxiliary floor mats. Truck models can have multiple floor plans due to options, accessories, and build variances. To check for proper fit; ensure that the floor mat lays flat against the O.E. flooring, and does not interfere with the control pedals. Please see Installation Instructions on our "Support tab" at www.productsalesco.com for important safety information. To purchase these products, contact or visit an authorized INTERNATIONAL Dealership. Dealer note; Available through your PDC program.
